

SHARP

ELEVATORS & ESCALATORS

Sharp by name. Precise by design

SINCE 2016

OUR STORY

Why Sharp?

2016

THE YEAR WE STARTED BUILDING TRUST, ONE FLOOR
AT A TIME

Sharp Elevators & Escalators was built on a simple belief: vertical movement should feel effortless, safe, and quietly premium.

Every gear, every rail, every cabin we build reflects the same standard: total perfection, total reliability.

Precision engineering

Safety first - EN81 and EN115

Total customer satisfaction

Our Range

1. Passenger Elevators

2. Home & Capsule Elevators

3. Hospital Elevators

4. Automobile Elevators

5. Freight Elevators

6. Dumbwaiter Elevators

7. Escalators

8. Moving Walkways

Passenger Elevators (with Machine Room)

The modern high-rise deserves elevators that move as smoothly as the building's ambition. Our machine-room passenger lifts carry 4 to 26 passengers at speeds up to 2.5 m/s — engineered for low, mid, and high-rise residential and commercial buildings alike.

Capacity: 272 kg – 1768 kg

Speed: 0.5 – 2.5 m/s

Doors: Automatic center / telescopic / manual

Control: Microprocessor-based, VVVF drive

Passenger Elevators — Dimensions											
LOAD Persons	LOAD Kg	CAR-INSIDE Width	CAR-INSIDE Depth	LIFT-WELL Width	LIFT-WELL Depth	ENTRANCE	MACHINE ROOM Width	MACHINE ROOM Depth	SPEED Mps	PIT Depth	OVER Head
4	272	810	920	1200	1350	700	1650	3500	Up to 1.5	1600	4800
5	340	1150	835	1600	1350	700	1600	3350			
6	408	1150	835	1600	1525	700	1600	3500			
8	544	1300	1100	1800	1800	800	2250	4100			
10	680	1350	1300	1800	2000	800	3300	4500	Over 1.5	2500	6700
13	884	2000	1100	2500	1900	900	4000	4400			
16	1088	2000	1300	2500	2100	1000	4000	4600			
20	1360	2000	1550	2500	2400	1000	4000	4900			

Passenger Elevators (Machine Roomless)

Not every building has room to spare — and not every elevator should need it. Our machine-roomless lifts fit the gearless motor directly within the shaft, freeing up valuable rooftop or top-floor space without compromising on speed, safety, or ride comfort.

Speed 0.65–2.5 m/s · Loads 272–1768 kg · LED cabin lighting ·
Gearless permanent-magnet motor

- Power-saving Lighting
- Comfort
- Technology
- Space Optimization
- Environment-Friendly

Hospital Elevators

In a hospital, every second and every movement matters. Our stretcher lifts are built for calm, jerk-free transport- spacious enough for bulky equipment, gentle enough for patients, and reliable enough for staff to trust without a second thought.

Emergency control system · Automatic or attendant operation · Proper exhaust ventilation · Spacious stretcher-friendly cabins

Hospital Elevators — Dimensions

LOAD Persons	LOAD Kg.	CAR-INSIDE Width	CAR-INSIDE Depth	LIFT-WELL Width	LIFT-WELL Depth	ENTRANCE	MACHINE ROOM Width	MACHINE ROOM Depth	SPEED Mps	PIT Depth	OVER Head
15	1020	950	2400	1700	3000	800	3700	5500	Up to 1.5	1600	4800
20	1360	1300	2400	2200	3000	1200	4200	5500		2500	6700
26	1768	1600	2400	2350	3000	1200	4350	5500			

CAR LIFT

Automobile Elevators

Every vehicle deserves a lift built specifically for it — not adapted from one. Our automobile elevators move cars safely and smoothly between floors, with guide rail systems engineered against the wobble unbalanced vehicle loads can cause.

Speed 0.50 m/s

Capacity 3,000 kg

Car Finish MS powder-coated or stainless steel hairline finish

Door type Vertical auto door / telescopic auto door

Door protection Infrared or optical screen sensing

Switch panel Digital LED or dot-matrix display

Freight & Goods Elevators

Warehouses, factories, and loading bays don't run on schedules that wait for you — they need lifts that move heavy, bulky loads reliably, shift after shift. Our freight elevators are built dust-proof and durable, engineered to keep your goods moving without downtime.

Capacity 500–5000 kg · Speed 0.25–1.0 m/s · Fully enclosed, dust-proof cabin · Heavy-duty guide rail system

Freight Elevators — Dimensions

LOAD Kg	CAR-INSIDE Width	CAR-INSIDE Depth	LIFT-WELL Width	LIFT-WELL Depth	ENTRANCE	MACHINE ROOM Width	MACHINE ROOM Depth	SPEED Kg	SPEED Mps	PIT Depth	OVER Head
500	1100	1200	1900	1600	1100	2500	4100	500-3000	0.25-1.0	1600	4800
1000	1400	1800	2300	2200	1400	2500	4700				
1500	1700	2000	2600	2400	1700	2600	4900				
2000	1700	2500	2600	2900	1700	2600	5400				
2500	2000	2500	2900	2900	2000	2900	5400	4000-5000	0.25	2200	6500
3000	2000	3000	2900	3400	2000	2900	5900				
5000	2500	3600	3500	4300	2500	3500	6800				

Escalators & Moving Walkways

Where movement never stops — malls, metro stations, airports — our escalators and moving walkways are built for constant, reliable flow. Precision-engineered for durability under heavy daily footfall, with safety systems that work quietly in the background.

- Automatic inspection status
- Handrail entrance safety device
- Emergency stop/brake control
- Broken step-chain protection
- Comb safety device
- Non-reversing safety device
- Overload protection
- Phase monitoring relay

Dumbwaiter Elevators

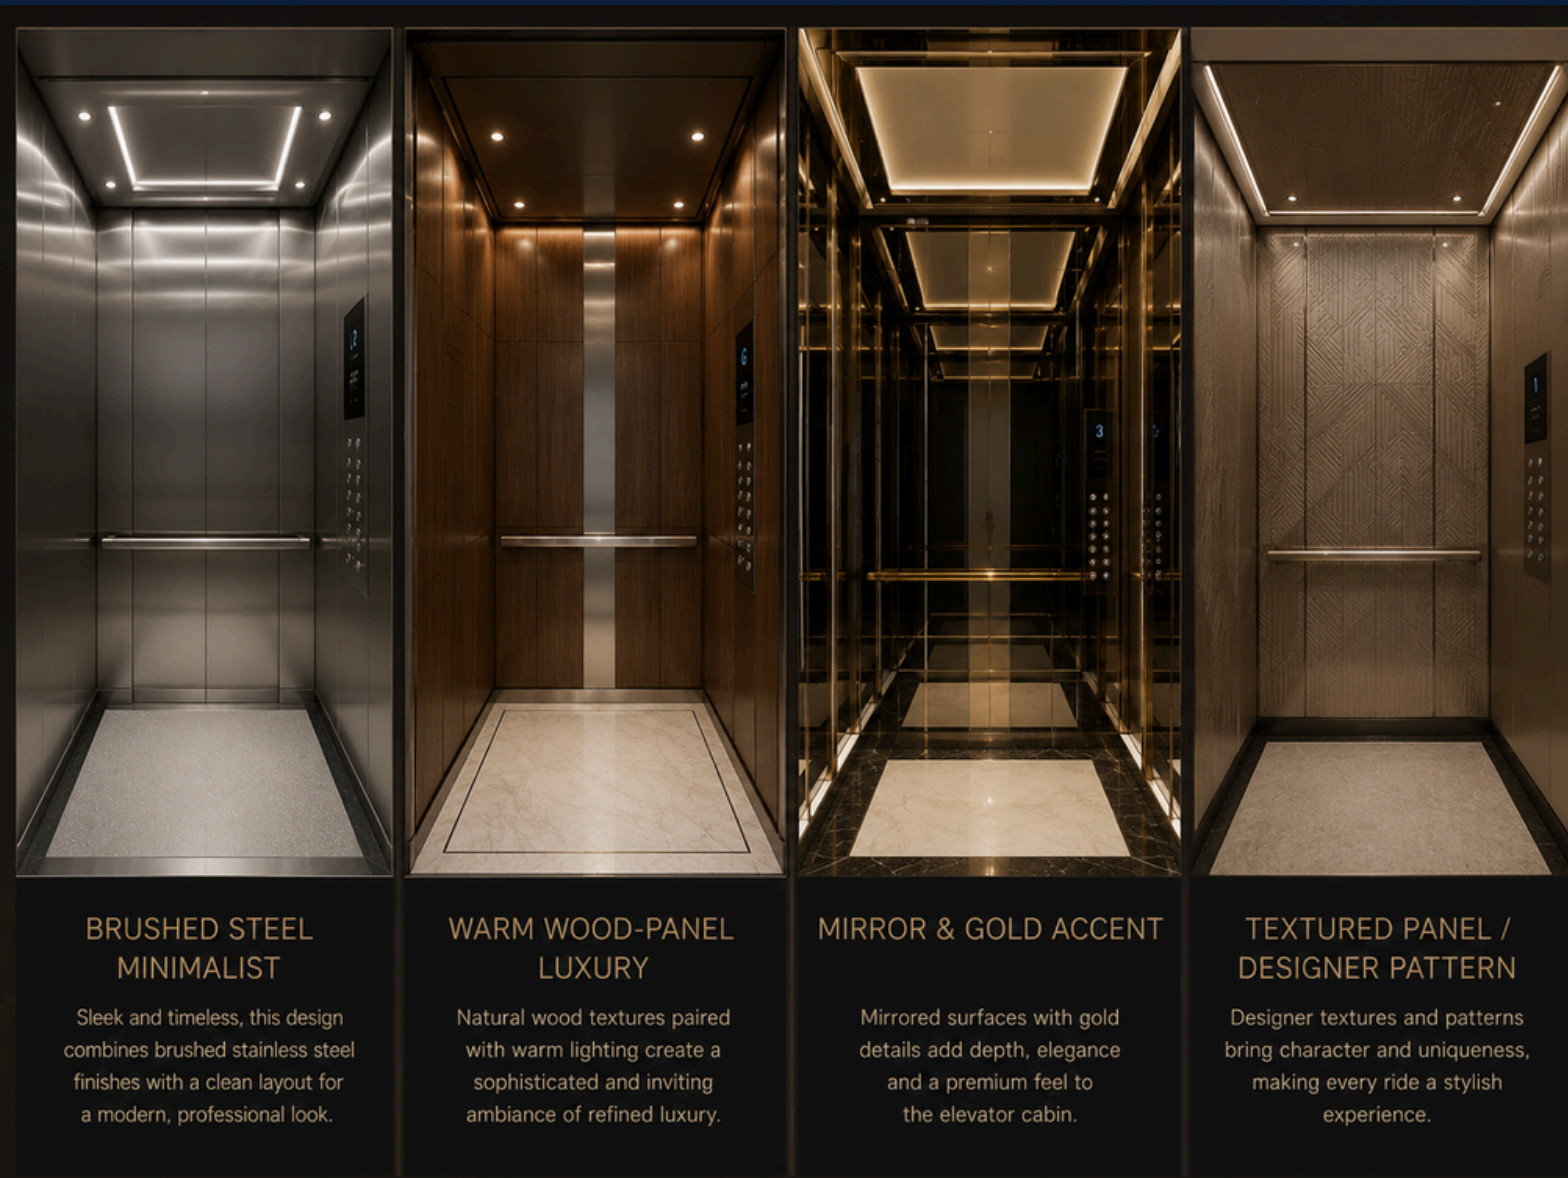

Not every lift needs to carry people to do essential work. Our dumbwaiter elevators move food, documents, and supplies quickly and quietly between floors — built for hotels, restaurants, hospitals, and offices where efficiency happens behind the scenes.

Capacity	25-100 kg
Speed	0.4-0.6 m/s
Car finish	Stainless steel, hygienic-grade
Control	Push-button / microprocessor-based

Compact, efficient, and built to the same precision standard as every Sharp product — because the small lifts matter just as much as the large ones.

Cabin & Finish Styles

The cabin is the one part of your elevator every passenger actually experiences. Choose from a range of finishes and design languages—each one engineered with the same precision as everything else we build.

BRUSHED STEEL MINIMALIST

Sleek and timeless, this design combines brushed stainless steel finishes with a clean layout for a modern, professional look.

WARM WOOD-PANEL LUXURY

Natural wood textures paired with warm lighting create a sophisticated and inviting ambiance of refined luxury.

MIRROR & GOLD ACCENT

Mirrored surfaces with gold details add depth, elegance and a premium feel to the elevator cabin.

TEXTURED PANEL / DESIGNER PATTERN

Designer textures and patterns bring character and uniqueness, making every ride a stylish experience.

Full collection of finishes, floor patterns, and ceiling designs available on request.

AMC & Maintenance Services

An elevator is only as reliable as the team behind it. Our Annual Maintenance Contracts keep your lifts running safely, smoothly, and without surprises — because the relationship doesn't end when installation does, it begins there.

What's included

- Scheduled preventive maintenance visits
- 24/7 breakdown response
- Genuine spare parts, no third-party substitutes
- Safety compliance checks as per EN81/EN115 standards
- Priority servicing for existing Sharp installations

Whether it's a routine check or an urgent callout, our team knows your equipment because we built it. That's a level of care a third-party servicer simply can't match.

Let's build the next floor together.
